Works of Art Deserve the Best!

Musical instruments are works of art that give voice to our joy, passion, craft, and soul. We pick up a musical instrument and instantly have a way to reach other people, to stir emotion, and to challenge ourselves. Musical instruments are works of art—that are intended to be used, not kept in a case.

That's where we come in. Protecting your instruments is why String Swing exists. For more than 25 years, we have been crafting the best musical-instrument hangers and display systems you can buy. We got our start in 1987 when our founder, Paul, envisioned a guitar hanger that would enable him to keep his guitar out of the case, ready to play in a moment, yet safe from damage and properly supported. Since that day, we've grown to become a successful, family-run business. We still make our products in Wisconsin, USA, where we started, and we guarantee them for life.

String SWING

CC01 Series Instrument Hangers

Here's where it all started: the CC01 Series, our #1 seller. Ideal for use in the home and studio, the CC01 is available with a variety of unique cradle designs for acoustic and electric guitars, banjos, violins, violas, dulcimers, ukeleles, mandolins, and over-sized guitars.

Hardwood Home and Studio Hangers
We make the wall mount of oak, ash, cherry and black walnut and its steel cradle is covered in a protective padding.

Available in:

- A. **CC01K** - Guitar keeper (not for classicals)
- B. **CC01UK** - Ukulele/mandolin
- C. **CC01** - For acoustic AND electric guitars

Not pictured:

- CC01B** - Banjo
- CC01D** - Dulcimer (scroll-type headstock)
- CC01J** - Longer extension for extra deep-body guitars
- CC01N** - Narrow body style ONLY
- CC01V** - Violin (¾, 4x4 violins and violas from 13"-17")
- CC01V-S** - Small violin (½, ¼ and ½ violins and 12" violas)

B

C

E

D

F

G

Metal Home and Studio Hangers
Functionally identical to the CC01, but we use a sturdy steel plate in place of the hardwood body, covered with durable black or white powder coating.

Available in:

- D. **CC11** - For acoustic AND electric guitars
- E. **CC11B** - Banjo
- F. **CC11V** - Violin (¾, 4x4 violins and violas from 13"-17")
- G. **CC11K** - Guitar keeper (not for classicals)

Not pictured:

- CC11D** - Dulcimer (scroll-type headstock)
- CC11N** - Narrow body styles ONLY
- CC11UK** - Ukulele/mandolin
- CC11V-S** - Small violin (½, ¼ and ½ violins and 12" violas)

Get Set Up On Stage with String Swing!

When you're on stage, you want to focus on performance, not gear. Our instrument and accessory hangers protect and support your instruments, preamps, equalizers, and other stage gear, and easily endure grueling travel and performance use.

CC02 Series Instrument Hangers

We make the CC02 Series for the on-stage user. This two-piece system consists of a low-profile steel plate that mounts to your amp or rack and a separate cradle that supports your instrument. You can remove and re-attach the cradle in a moment, and store it with your instrument, so it's always ready for use. This durable, simple, and efficient system also saves floor space, so you can fit more instruments into limited stage space.

String SWING

TOP-SELLER

Amp-Mounted Hangers

This sturdy two-piece powder-coated steel hanger attaches stoutly to your amp with a flush-mount base and removable cradle that disassembles in a moment for storage. The CC02 is available with a unique cradle design for acoustic and electric guitars, banjo, violin, viola, dulcimer, ukelele, mandolin, and oversized guitars.

Available in:

A. **CC02K** - Guitar keeper (not for classical)

B. **CC02** - Wide and narrow body guitars

Not pictured:

CC02D - Dulcimer (scroll-type)

CC02N - Narrow body style ONLY

CC02UK - Ukulele/mandolin

CC02V - Violin (¾, 4x4 violins and violas from 13"-17")

CC02V-S - Small violin (⅜, ¼ and ½ violins and 12" violas)

Clip-On Amp Handle Hangers

You'll find this cleverly designed amp handle-mount hanger stores your instrument securely yet requires virtually no room on stage! Hooks onto your amp or cabinet handle. Great for traveling musicians to eliminate floor stands when stage space is limited.

Available in:

C. **CC06** - For round handles

D. **CC05** - For suitcase handles

E. **CC07** - For flat handles

Not pictured:

CC12 - For folding handles

CC24 - Guitar stand for suitcase handle

Rack-Mounted Hanger

Choose this well-built hanger and make use of wasted space on your rack. Adjustable with locking pivot points. Direct bolt on to standard rack mount spacing.

Available In:

F. **CC14** - Wide and narrow body guitars

Mic/Music Stand Accessory Hangers
Make the most of your space on stage with these sturdy steel hangers that protect your gear yet keep everything right where you need it. Attaches to any pipe up to 1" in diameter, and designed specifically for the gear below.

Available in:

G. **MSPA**H - Preamp and equalizer holder (Works great for tablets!)

H. **MSSS** - Sheet stand attachment

I. **MSD&DT** - Drink and double tuner tray

Mic/Music Stand Twin Hanger

This space-maximizing design doubles the storage ability of each stand! Attaches to any pipe up to 1" in diameter.

Available in:

J. **CC04TWN-V/UK** - 1 violin and 1 ukulele/mandolin

Not pictured:

CC04TWN-UK - 2 ukuleles/mandolins

CC04TWN-V - 2 violins

Music Stand Violin Hanger

Conserve floor space and keep your violin secure and convenient. This hanger attaches to the front lip of the music stand with a sturdy steel clip.

Available in:

K. **CC08** - Violin (¾, 4x4 violins and violas from 13"-17")

Mic/Music Stand Hangers

These sturdy yet lightweight instrument cradles help you make the most of the floor space on stage, while ensuring easy access to your instrument. Attaches to any pipe up to 1" in diameter.

Available in:

L. **CC04** - For acoustic AND electric guitars

M. **CC04K** - Guitar keeper

Not pictured:

CC04V - Violin

CC04UK - Ukulele/mandolin

String SWING

Maximize Sales with Smart Showcasing!

It's simple: the more product you display, the more you sell. You can display more and sell more with the huge variety of high-quality wood and steel display units we build for all types of instruments and gear. On the following pages you'll see sturdy, fair-priced, American-made display systems for guitars, pedals, amps, drums, keyboards, and accessories. All of our display systems are adjustable and customizable, lending greater flexibility to showcasing your products.

Savvy use of these display options, including making use of the underused vertical space in your store, will reap the benefits of increased floor space. And that means more sales!

NEW!

Folding Floor Stands

These stands are a sturdy, secure, and flexible way to display acoustic and electric guitars, ukeleles, mandolins, banjos, cases, and more. Made of robust steel or wood, with padded rests to protect each instrument.

Available in:

- A. **CC27** - Triple inline, for acoustic, electric and bass guitars
- B. **CC53 - NEW!** For ukulele, mandolin, or violin
- C. **3WAY** - 3-way hanger stand
- D. **CC13** - Hanger floor stand
- E. **CC29** - Case rack, holds up to 5 cases
- F. **CC25** - Metal frame, for guitar
- G. **CC22** - Hardwood frame, for guitar

Guitar Effects Pedal Displays

Musicians love to try out guitar effects pedals, and we offer four ways for you to display them! Gather them all together for comparison, or display them with a live amp for live testing. Customers will love it!

Available in:

- H. **CC44** - Guitar effects center
- I. **SBD** - Stomp box display, desk model

Not pictured:

- DAR** - Double amp rack
- SBF** - Stomp box display, floor model

Double-Sided Racks

Maximize your underused vertical space with these racks that double-up the guitars, drums, amps, and keyboards.

Available in:

- J. **CCAR** - Amps (18 ct.)
- K. **CCDR** - Drums (4 ct.)
- L. **CCGR-E** - Electric guitars (38 ct.)
- M. **CCKR** - Keyboards (12 ct.) and amps (6 ct.)
- N. **CC109A** - Acoustic guitars (12 ct.)

Not pictured:

- CCGR-A** - Acoustic guitars (34 ct.)
- CC109E** - Electric guitars (16 ct.)

M

N

Single-Sided Racks

Our single-sided racks are built to last and display amps, guitars, and keyboards securely.

Available in:

- O. **CCAR-9** - Amps (9 ct.)

Not pictured:

- CCGR-A15** - Acoustic guitars (15 ct.)
- CCGR-E17** - Electric guitars (17 ct.)
- CCKR-4** - Keyboards (4 ct.)

Hollow-Back Amp Rest

This optional insert adapts our racks for displaying hollow-back amps. Sold as a pair.

Available in:

- P. **HB-REST** - Works with all tilted amp rests

P

Customize your own displays!

You can optimize your floor space and increase sales with rack systems that adapt to your space. Our tree rack display systems are versatile and sturdy, made of solid steel with powder-coated finishes.

These highly adjustable rack systems offer the flexibility of a central steel "tree" to which you attach your choice of hangers for support of guitars, keyboards, amps, drums, ukeleles, mandolins, banjos, and violins. They're versatile, durable, and made in the USA.

Out of Room?

Don't worry—you're not out of luck. You just need a display solution that takes advantage of the room you do have available—the underused space high on the walls and near the ceiling.

Ceiling-Mount Instrument Hangers

We offer two ceiling-mount hanger systems. Both hanger systems are made of solid steel, with a durable powder-coated finish on the cradles. Both systems accommodate a variety of cradle options, and can display guitars, ukeleles, banjos, mandolins, and violins (see page 22).

The CC122TR displays two instruments, with an adjustable telescoping shaft that you can adjust to fit to your ceiling height.

The CC28R&L displays one instrument and works well mounted to the ceiling and in cabinets.

SSE Music (La Crosse, WI)

Ceiling / Cabinet Displays

These versatile, solidly built hanger systems let you display more instruments—even when your floor space is full! Also may be mounted inside a cabinet or display case.

- Available in:
- A. **CC122TR** - Twin reverse, holds 2 instruments
 - B. **CC28R&L** - Multi-angle, holds 1 instrument

Guitar Collector Showcase (West Hartford, CT)

Slatwall Systems Provide Maximum Display Space

Slatwall is a solidly built wall display system consisting of hardwood or aluminum rails and specially made fixtures that hold instruments and gear. The fixtures slip easily into grooves in the slatwall, and move easily side-to-side for quick adjustment. When you need more display space, slatwall systems are easy to expand by simply adding more rails. Choose a slatwall system, then choose fixtures and cradles for the instruments you will display.

Strong Wall: Extruded Aluminum Slatwall Rail

SW1: Starter Rail: This rail is designed for 3-inch slatwall fixtures that display stringed instruments such as guitars, violins, ukuleles or band and orchestral instruments.

SW2: Add-On Rail: This rail is designed for 4-inch or 6-inch slatwall fixtures that display heavier items such as drums or heavy amps. The SW2 has tongue-and-groove tabs to stack seamlessly with the SW1 rail... resulting in a rigid support for these heavy items.

Both rails are available in a durable black vein or silver vein finish in 8-foot lengths. Install only what you need, anywhere you need it.

Available in:

- C. **SW1-S** - Starter piece, silver vein
- D. **SW2-S** - Add-on piece, silver vein

Not pictured:

- SW1-B** - Starter piece, black vein
- SW2-B** - Add-on piece, black vein

Hardwood Slatwall Rail

Solid hardwood rails made of cherry, oak, or walnut lend warmth to your display area, while aluminum inserts ensure extra strength for supporting heavy items like amps and keyboards. This system uses 3" slatwall fixtures, with hangers that hook into the top groove and lock into the bottom groove for great security. Each 8-foot length of hardwood rail is made of 5 hardwood pieces and 2 aluminum inserts, and comes sanded and ready for your varnish or oil.

Available in:

- E. **RAIL-C** - Cherry with silver inserts

Not pictured:

- RAIL-C/BI** - Cherry with black inserts
- RAIL-O** - Oak with silver inserts
- RAIL-O/BI** - Oak with black inserts
- RAIL-P** - Paint-grade with silver inserts
- RAIL-P/BI** - Paint-grade with black inserts
- RAIL-W** - Walnut with silver inserts
- RAIL-W/BI** - Walnut with black inserts

Economy Slatwall Rail

Our Economy Slatwall system is a durable, flexible, and beautiful system—and a great value. The wood rails are sanded and ready for your varnish or oil. A single slot on the top of the rail holds the plate of the hanger. (Hangers ordered for this rail do not feature our slatwall clips.) Sold in 8-foot lengths.

- F. **ECONOMYRAIL** - Solid oak hardwood

You can pair any hanger with any cradle and display a variety of stringed instruments. See page 22 for more information and cradle photos.

Multi-Angle Hangers

Adjustable pivot points allow for maximum versatility! Conveniently allows you to rearrange your store for a new look or to create more space to stock more instruments.

Available in:

A. **CC03MA5** - 5" pivoting extension with 2" swing arm

Not pictured:

CC03MA8 - 8" pivoting extension with 2" swing arm

B. **CC03R&L** - 7" straight extension with 2" swing arm

Not pictured:

CC03SP - 8" pivoting extension with 90° cradle mount

Lockdown clip included with purchase of slatwall hangers! (See Item M on page 21)

Front-Facing Hangers

Shows the face of your instruments.

Available in:

C. **CC03F2** - 2" stem

Not pictured:

CC03F4 - 4" stem

Fixed Angle Hangers

30° angle showcases more of the front of the instrument. Requires more wall space. 65° angle allows instruments to fit closer together. Requires less wall space.

Available in:

D. **CC03L** - 30°, left-facing

Not pictured:

CC03LL - 65°, left-facing

CC03R - 30°, right-facing

CC03RR - 65°, right-facing

Guitar Security Lock

Protect your valuable inventory from a five-finger discount. Our easy-to-use security locks are made to the same high quality standards as our hangers. (Hangers are sold separately.)

Available in:

E. **CC21** - Works with the CC01, CC02, CC03, CC11 and CC15 series hangers. (Will not fit the "narrow" versions of these hangers.)

Morgan Music (Lebanon, MO)

Display it like it's played!

1-pc. Horizontal Holders

Cradles pivot freely to accommodate different styles of guitars. One plate to mount to the wall makes this fixture ideal for a flat wall surface. Fully adjustable for right- and left-handed guitars.

Available in:

F. **CC151N** - Narrow body

G. **CC15S** - Violin/mandolin/ukulele

H. **CC151LPW** - Wide body, low-profile

Not pictured:

CC151W - Wide body

CC151LPN - Narrow body, low-profile

2-pc. Horizontal Holders

Cradles pivot freely to accommodate different styles of guitars. Two plates to mount to the wall; 1 for the body cradle and one for the neck cradle. Ideal for store use, or on a slatwall system. Easily adjustable for right- and left-handed guitars.

Available in:

I. **CC15N** - Narrow body

Not pictured:

CC15W - Wide body

CC15LPN - Narrow body, low-profile

CC15LPW - Wide body, low-profile

Wall-Mounted Guitar Stand

Great for guitars with no headstock, as this rack supports the guitar body. Adjustable height and angle.

Available in:

J. **CC20E** - Electric guitars

Not pictured:

CC20A - Acoustic guitars

Play More With String Swing!

Andrew has been there.

"Outta sight, outta mind," I thought. "I realized that I wasn't playing very often, maybe just a couple times per week. And I knew I wasn't improving like I wanted. I just didn't get the guitar out of the case like I used to."

Andrew S., La Crescent, MN

It's not a secret. If you want to improve your skill and enjoyment of your instrument, you simply must play more. Daily practice is what you need. How do you make time to play every day? Get that guitar out of the case, and hang it where you will see it every day. Every instrument should be stored out in the open, where it will be played daily!

- F. **HH15** - Flute
- G. **HH15P** - Piccolo

Lockdown clip included with purchase of slatwall hangers! (See Item M on page 21)

Mic Stand Clip For Band Instruments

We paired up our mic stand clip with a flatwall version of the band instrument hangers to provide easy access while you perform!

Available in:

- H. **HH04** - Clip only
- I. **HH04-12** - Trumpet

Not pictured:

- HH04-11** - Flugelhorn/soprano sax
- HH04-13** - Clarinet
- HH04-15** - Flute
- HH04-15P** - Piccolo
- HH04-25** - Oboe

Upright Bass Displays

Feature your basses in any of three ways.

Available in:

- J. **HH10** - Wall stand
- K. **HH08** - Neck support
- L. **HH101** - Floor stand (with wheels)

Brasswind Hangers

Check out these innovative, durable hangers for presenting your brasswind instruments.

Available in:

- M. **HH18** - French horn
- N. **HH09** - Tuba/sousaphone
- O. **HH14** - Baritone
- P. **HH12H** - Horizontal trumpet
- Q. **HH16** - Trombone
- R. **HH12** - Trumpet
- S. **HH11** - Flugelhorn/soprano sax (pg. 14)

Practice makes perfect!

Daily practice is a sure way to success. And students just learning to play their instruments are more likely to practice when their instruments are out of the case and easily accessible, whether at home or in the band room. And in addition to conserving floor space, our instrument hangers keep valuable instruments off the floor and out of reach of small children and pets.

We make it easy to select the hanger system you need for one instrument or for several. Simply pair the exact hanger you need for each instrument with the mounting plate made for your wall type: slatwall, gridwall, pegboard or a flat wall surface. (See page 22 for more information.)

- O. **CC09S** - Sloped sliding shelf
- P. **MDD** - Mesh deck

Not pictured:

- CC09F** - Flat sliding shelf

Make More Display Space with Drum and Keyboard Systems!

Drums and keyboards—fun to play, but tough to display! They're heavy and consume lots of floor space, if you let them. Fortunately, you have options for wall mounting that are sturdy, secure, and attractive.

One great way to display drums is to place a few kits up on wall displays to show colors and options, with one kit at floor level for playing. We make our drum and percussion displays, like everything we make, from strong steel and finish with durable powder coating.

Our keyboard displays feature arms that adjust for angle, with a choice of 16", 19", or telescoping lengths to accommodate a huge variety of keyboards securely. Some models feature extra bracing to support the heaviest keyboards. Robust steel and durable powder coating will endure for decades.

When you need to display other items with a wall-mount system, our shelf displays may be just what you need. We make systems like effects racks, mesh shelves, sloped shelves, and amp arms to help you securely and safely showcase all of your products.

Innovation Beyond Instruments

After you sell the musical instrument, then what? Sell the accessories! Offering more products is a perfect way to supplement sales of instruments and keep customers coming back. Keeping everything organized, though, can be challenging, unless you have the right displays.

Many of our customers have requested the display units you see here, and we encourage all of our customers to use these displays creatively and let us know how they customize and innovate! In fact, most of the display units shown here can be used in multiple ways. That versatility means that you can always find a way to display new and different products. Combined with strength and durability of our powder-coated steel construction, you'll find these displays useful for years."

Microphone Displays

Showcase your microphones and lock them securely with this sturdy display. Complete with threaded bushings for mounting your provided mic cradles.

Available in:

- A. **CC16MM** - Twin microphones
- B. **CC16M** - Single microphone
- C. **CC16-6** - Six microphones
- D. **CCML** - Microphone lock, 24" length
- E. **CC16-6ML** - Six microphones, with locks

Live Microphone Displays

This display locks to all 5/8" stands, and secures microphones for live demo! No mic cradles needed.

Available in:

- F. **LML** - Single live mic lock
- G. **LML-3** - Triple live mic lock

NEW!

Panel Racks

These versatile displays showcase all kinds of products, and work as counter-top displays or hang on slatwall with provided clips. String racks automatically rotate stock for you!

- M. **CC32P** - **NEW!** Speaker display, magnet out
- N. **CC32** - Speaker display

Not pictured:

- SSST** - Guitar strap display, holds up to 220 guitar straps

NEW!

String/Cable Hooks

Sturdy steel construction works great for cables or other heavy items that most hooks cannot support. Also works well for other retail items.

Available in:

- O. **SCH-3"** - 3" stem
- P. **SCH-6"** - 6" stem
- Q. **SCH-10"** - 10" stem

Padded Display Hooks

These versatile padded displays can be used in dozens of ways; showcase trombones horizontally, support odd-shaped guitars, and whatever else you can think of!

Available in:

- R. **HH19-10"** - 10" stem
- S. **HH19-6"** - 6" stem
- T. **HH19-3"** - 3" stem

Our Accessories and Tools Make Life Easier

We developed these tools and accessories to help you optimize your displays, and to help you provide more effective and efficient repair service. Our specialty tools are favorites of professionals because they save time and make repairs easier. Our accessories are the details that show your store as a professional business.

Tools

These handy tools are a must-have for any music store that does guitar repairs. Save yourself time and frustration with these great products.

Available in:

- A. **CC18** - Guitar jack and ferrule tool. Easily tighten loose pick-up jacks without entering the instrument.
- B. **CC31** - Pickup jack installation tool. Install acoustic pick-ups in round-hole instruments without removing the strings! Also makes installing through an F-hole a breeze!

Not pictured:

CC19 - Keeper Ring Expander Tool. For use with our keeper rings (CC10). Expands center diameter to allow keeper ring to easily pass over the tips of the cradle arms.

"Your [CC18] tool has proved itself quite useful. Whenever I'm dealing with a tricky jack, this is the tool I grab first."

Carl Meine, Repair & Restorations,
Dave's Guitar Shop,
La Crosse, WI

Locks

These great anti-theft items will pay for themselves by reducing loss to theft. Use on high-end items, or outfit your whole store.

Available in:

- C. **CC30-16** - 16" Cable lock
- D. **CCJL** - Single jack lock
- E. **CCJLD** - Double jack lock

Not pictured:

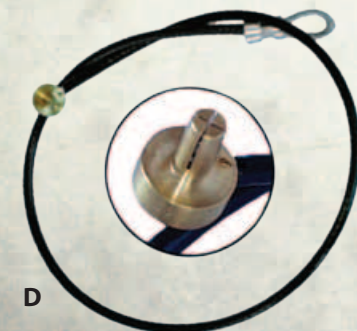

CC30-28 - 28" Cable lock

NEW! MuteX Sound Treatment

MuteX is a soundproofing product with dozens of possible applications in the studio, home, and business. It works to reduce and absorb sound transmission through walls, floors, and ceilings. MuteX can be installed either under or over drywall, and because it does not compress, performance does not degrade over time.

Accessories

This line of innovative display accessories was developed to help music industry dealers overcome an array of everyday display challenges.

- F. **CC33** - **Wall Bumper**. Added protection for your instrument in case it is bumped against the wall. May also be used for various applications; use your imagination!
- G. **CC10** - **Keeper Rings (24 pk)**. Recommended only for use with our original style guitar yoke; prevents instrument from turning out of the hanger.
- H. **CC101** - **Keeper Strap**. Stretches from one yoke arm to the other; not required for use with our hangers, but adds peace of mind.
- I. **PH** - **Pick Holder**. Adheres to instrument as a handy place to store your picks!
- J. **GPC** - **Guitar Protection Clip**. Clips to stringed instruments of any size and deters customers from helping themselves to your valuable instruments. Complete with clip which may hold product info.
- K. **SIH** - **Slatwall Information Holder**. Use adjacent to each instrument to show product information on a 3"x4" display that mounts to slatwall or pegboard systems.
- L. **HK** - **Hardware Kit**. An assortment of various length self-tapping screws, and stainless steel washers to fasten down guitar effects pedals. Phillips head drive.
- M. **CLIP** - **Clip for Slatwall Hangers**. Secures slatwall plates to wall to keep fixture from falling off the wall and onto valuable inventory below. Plate is secured to slatwall, but still able to slide left and right. Comes standard with slatwall hangers.

TOP-SELLER

Choices, Choices, Choices!

Our combination of cradles and plates gives you the ability to customize all your displays to your store layout.

We make cradles specifically sized and shaped for the instruments shown at right, which you pair with mounting plates designed for whatever wall system you choose.

Cradles:

All cradles pivot freely on the plate and are sized and shaped for a specific instrument headstock. This free-pivoting concept alleviates stress on the neck, as gravity ensures that the instrument hangs vertically and securely. Cradles are also adjustable in width, so you can slightly narrow or widen the opening for a better fit.

Plates:

Choose plates based on your wall system:

- Slatwall is for a slotted wall system; choose 3", 4", or 6" options.
- Flatwall is for a flat wall surface, with 2 screw holes and mounting hardware supplied.
- Pegboard is for a pegboard system.
- Gridwall is for a standard 3" square gridwall system.

Order Process:

Step 1: Choose your mounting surface—flatwall, slatwall, etc.

Step 2: Choose your style—front facing, angled, multi-angle, etc.

Step 3: Choose your cradle for each specific instrument

Yoke/Cradles

Order the specific cradle that you need for your display. Every type of instrument is different, therefore, we advise against using the same cradle for all of them.

Available in:

- A. YOKE/K: SDY03 - Guitar keeper yoke.** Deep-cradle design prevents the guitar from being improperly placed back in the hanger. Great for store displays, as well as home, studio and stage use! Yoke pivots to cradle the headstock of the guitar. (Keeper rings not needed.) Accommodates guitars, mandolins and 4-5 string basses. (Not for classical.)
- B. YOKE/HD: HDY03 - Original style guitar yoke.** Original style yoke still works great in home and studio settings for a low-profile look. Yoke pivots to cradle the headstock of the guitar. (Keeper rings included and recommended for use.) Adjustable yoke width accommodates guitars, mandolins, and 4-5 string basses. (Ideal for classical.)
- C. YOKE/V - Regular violin yoke.** Displays $\frac{3}{4}$, 4x4 violins from 13"-17". Instrument will not rest on its tuners!

- D. YOKE/VB - Regular violin yoke with bow holder.** Displays $\frac{3}{4}$, 4x4 violins from 13"-17". Instrument will not rest on its tuners! Includes a bow holder for convenient storage of your bow.
- E. YOKE/V-S - Small violin yoke.** Displays $\frac{1}{8}$, $\frac{1}{4}$ and $\frac{1}{2}$ violins and 12" violas. Instrument will not rest on its tuners!
- F. YOKE/VB-S - Small violin yoke with bow holder.** Displays $\frac{1}{8}$, $\frac{1}{4}$ and $\frac{1}{2}$ violins and 12" violas. Instrument will not rest on its tuners! Includes a bow holder for convenient storage of your bow.
- G. YOKE/UK - Ukulele/Mandolin yoke.** Works great for ukuleles AND mandolins! Instrument will not rest on its tuners!
- H. YOKE/B - Banjo yoke.** For banjos only. Instrument will not rest on its tuners!
- I. YOKE/BG: BY03:6-7 - 6-7 String bass guitar yoke.** For use with a 6-7 string bass guitar. (Keeper rings included and recommended for use.)
- J. YOKE/C - Cello yoke.** For cellos only. Instrument will not rest on its tuners!
- K. YOKE/D - Dulcimer yoke.** Displays only dulcimers with a scroll-type headstock.

EXPRESS YOURSELF WITH
